whether actual time of my appearance before House Subcommittee for hearings on CU budget (STATE 11237) can be determined with more precision and will stick. If hearing likely (or could be arranged) in week beginning February 23. then I would have no problem with February 20 date for 136th meeting. If this not feasible, decision will have to be made in Department whether I should return as scheduled and another date be proposed to Chinese, or whether I should forego subcommittee hearings.
